

### FHM REC Debrief Guidance

Please note that the following information is for guidance purposes only. You are not required to include all the suggestions below. The guidance is to help researchers formulate a debrief process and any associated paperwork that is useful for their individual projects. The following guidance is based on previous debrief summaries submitted to FHM REC, or that members of FHM REC have previously used. We are therefore not stating that there is a 'right' way to debrief or use specific paperwork. We hope that the guidance might act as a useful starting point for researchers contemplating a debrief process or composing debrief paperwork. As always, we welcome your views on the guidance.
